## Chemical Engineering Department

---

### Overview , Vision and Mission

---

The Department of Chemical Engineering has well equipped laboratories and experienced faculty. It provides computing facility to the students along with departmental library.

Modern equipment setups enable the students to carry out experiments in subjects like heat transfer, fluid mechanics, Instrumentation and process control etc. The department makes arrangements for industrial visits and training.

The department has formed Chemical Engineering Students Association ( CHESA) to provide platform for industry institute interaction, interaction of students with alumni, various students activities and personality development programmes.

Department encourages and guides students to participate in technical activities like DIPEX, BHARATI AVISHKAR, Techno-Innova and the like.

➤ **Vision :**

To attain for quality education and excellence, training students for meeting the challenging needs of chemical and allied industries and society through the application of Chemical Engineering.

Create and sustain a mutually supportive, stimulating environment to promote the individual and professional growth of members of our academic community.

➤ **Mission :**

**M1.** To produce chemical engineers with a strong foundation of technical, communication, teamwork, and problem-solving skills required for industrial and professional environment.

**M2.** To provide an intellectually stimulating and challenging environment for the students which encourages their desire for progressive and innovative changes, recognizes their

leadership and team-building potentials, develop values of decisiveness, integrity, and self esteem to equip them for their livelihood.
