Electrical Engineering Department

Vision, Mission and Objectives

Electrical Engineering Department is well equipped with the latest equipment. Computing facility is provided to the students with a view to facilitate their working on modeling and simulation network.

The laboratories of this department include Electrical Machines, Electrical Measurements and Measuring Instruments, Power Systems, Industrial Drives and Controls, Switchgear and Protection.

Electrical Engineering Student's Association (EESA) works actively for all round development of the students. Among its prominent activities are industrial visits, seminars and project exhibitions, wall magazine etc.

The department has recently acquired the capability for harmonic analysis of industrial meter up to 0.15% accuracy. Meter testing facilities are being promoted for internal revenue generation.

Vision :

To be the centre of excellence for development of Creative electrical engineers and technological developments.

Mission :

1. To provide high quality and effective education to imbibe theoretical knowledge and practical skills in the field of electrical engineering.

2. To Bridge the gap between industry and academics by partnership with industry, professionals and alumni.

3. To enhance the overall personality of the student to build better leadership, managerial expertise/ techniques and to develop awareness of social responsibilities .
