COMPUTER TECHNOLOGY DEPARTMENT

Vision of the Department:

To empower the students with effective technical and professional skills in Computer Technology along with industrial knowledge to fulfill the changing needs of the society

Mission of the Department:

M1: By establishing professional and entrepreneurial qualities in response to the latest trends in the technology

M2: By contributing to the societal enhancement through technical education and ethical responsibilities related to computer engineering

M3: By developing the skills of analysis, design, implementation and testing concerned with Computer software and hardware

Program Educational Objectives

PEO1: Develop the knowledge and skills in the hardware and software profession to meet the global needs.

PEO2: Build the technical, ethical and communication skills with leadership qualities in the profession.

PEO3: Extend entrepreneurial skills for student's livelihood.

Program Specific Outcome

PSO1: Acquire software Knowledge and implement them in various fields.

PSO2: Contribute the engineering skills in hardware, network management and computer security.
